

Presentation Goals

- ☐ You will learn about the definition of a slapdown intake
- ☐ You will get to know the different types of slapdowns
- ☐ You will understand how a slapdown intake works
- ☐ You will understand how to model geometries and parts for a slapdown intake

Presentation Order

- ☐ Getting to know slapdown intakes
- ☐ Core principles of a slapdown intake
- ☐ Geometries - differences and how to design
- ☐ Part design and assembly

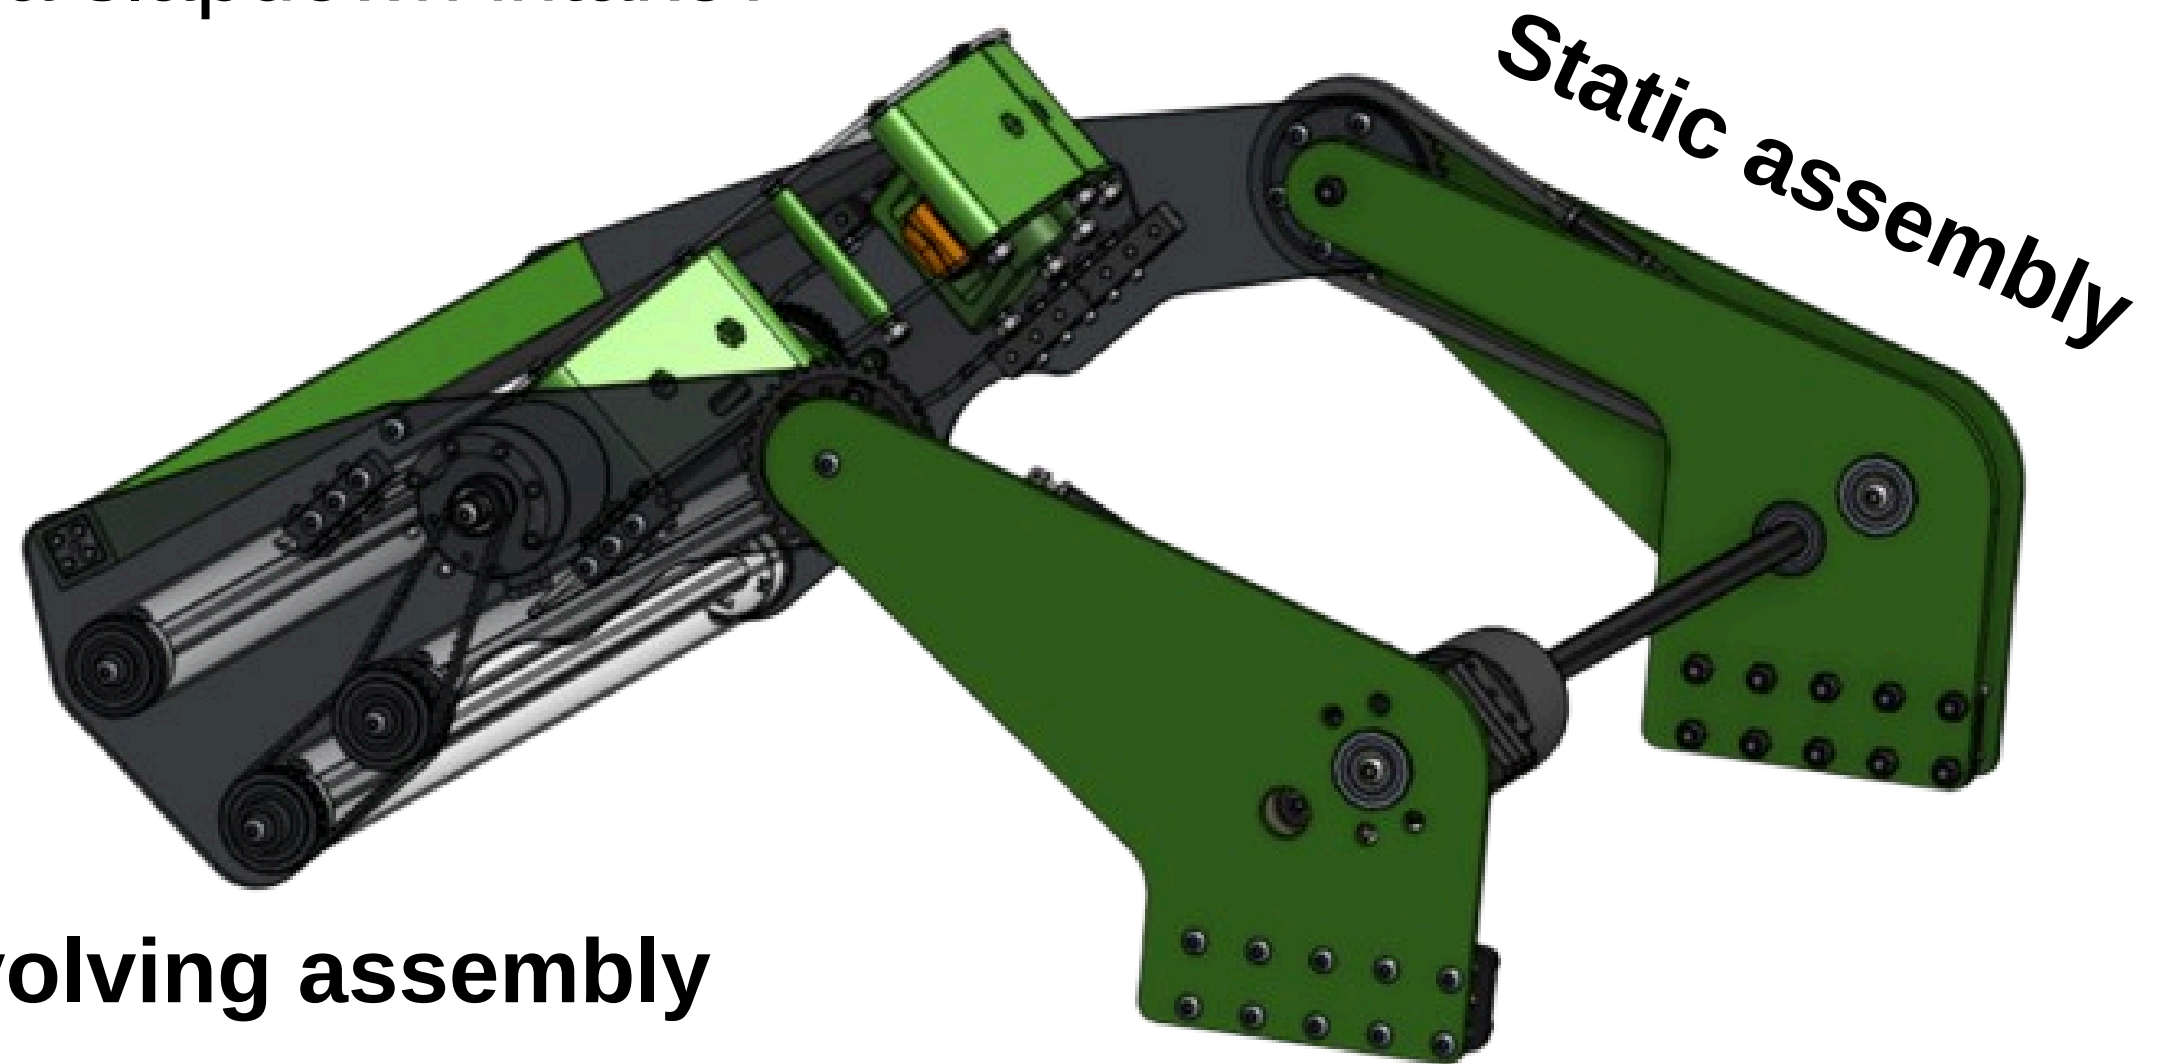

Getting to know slapdown intakes

?? What's the definition of a slapdown intake?

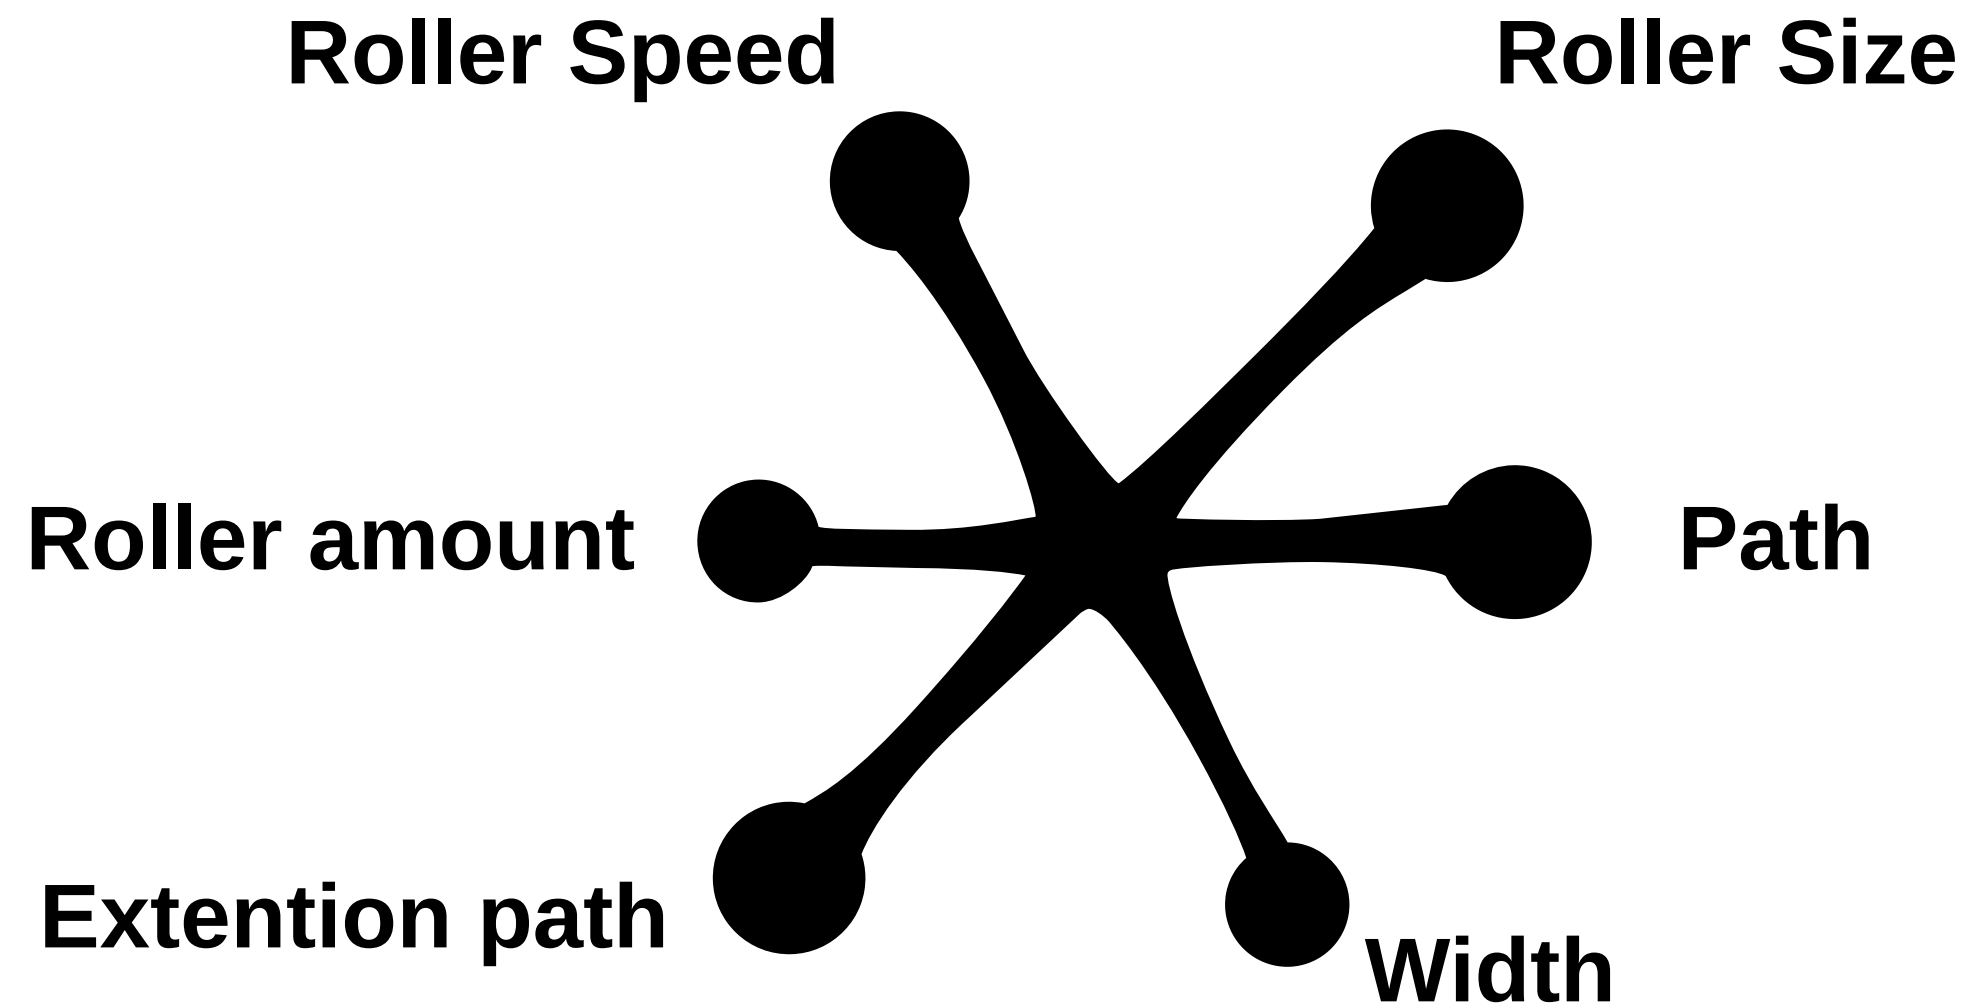

?? What is it used for?

?? How is it built?

Core principles
