11x - Slapdown intakes

The main points of this presentation

- Getting to know slapdown intakes
- Understanding how a slapdown intake works
- Defining geometry
- Modeling a slapdown intake
- Examples

Getting to know slapdown intakes

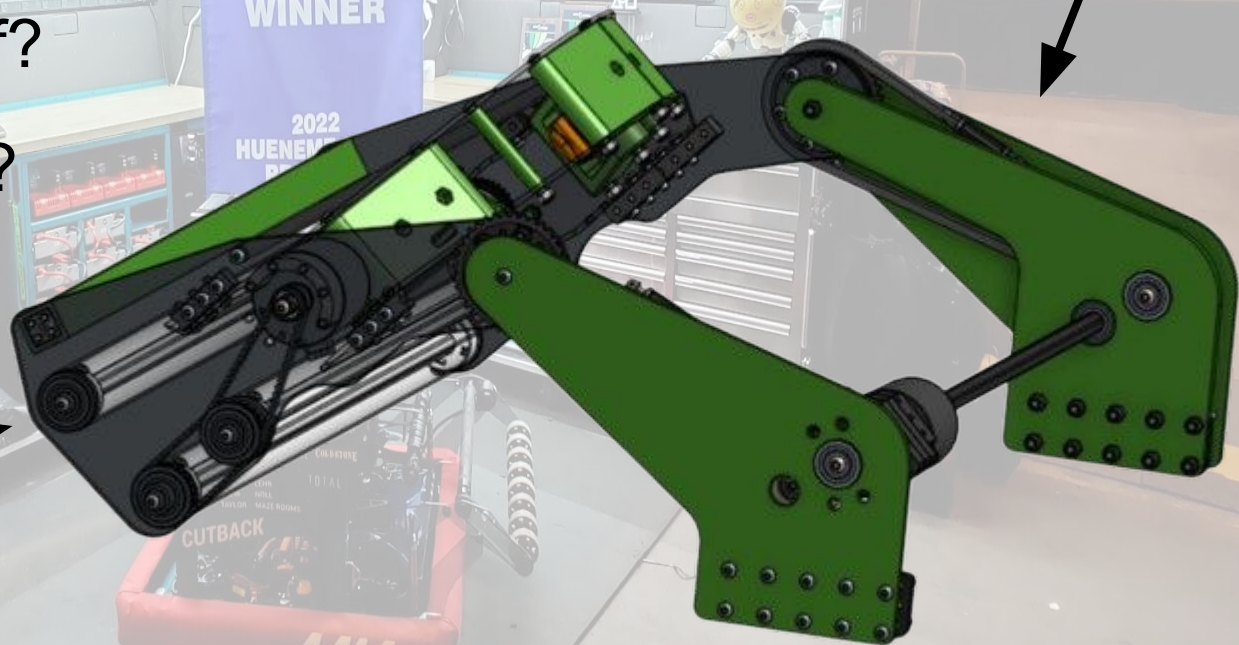

So what is a slapdown intake?

What is it made of?

How does it work?

Rotating assembly

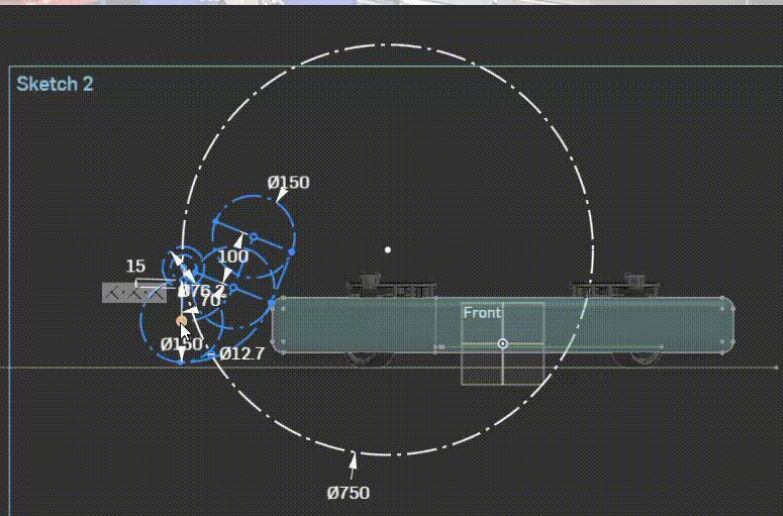

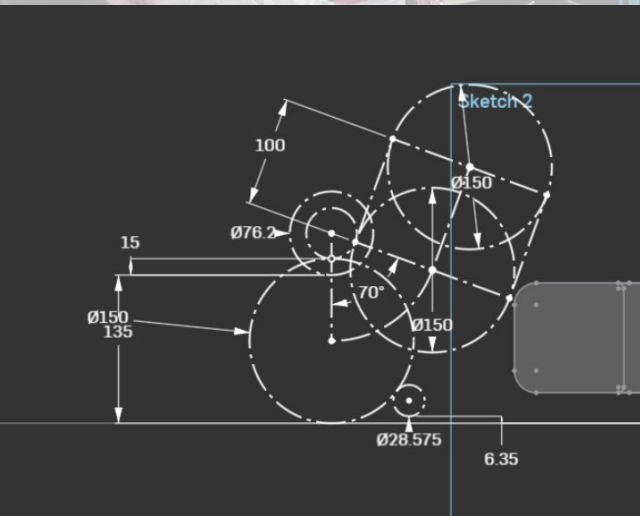

Static assembly

How do they work?

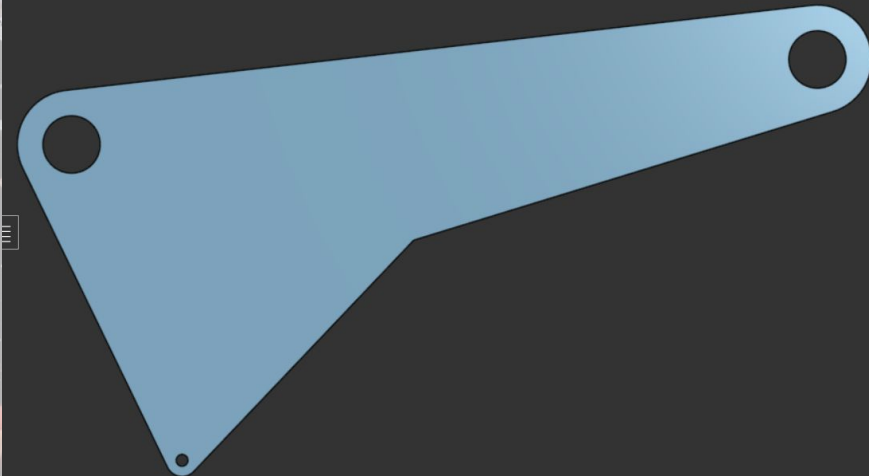

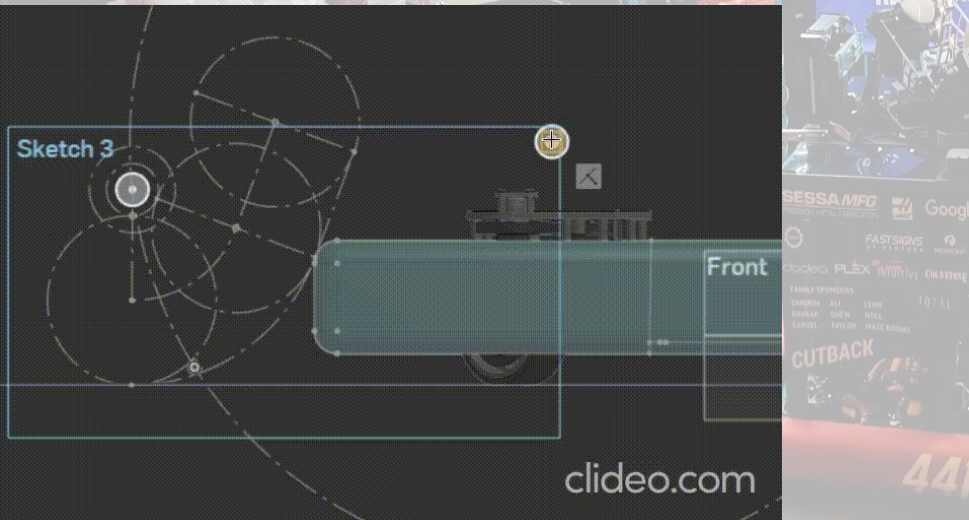

- Defining geometry - Over The Bumper vs Cut Bumper
- Defining path

Part Design

- Plates
- Ratios
- Motor Integration

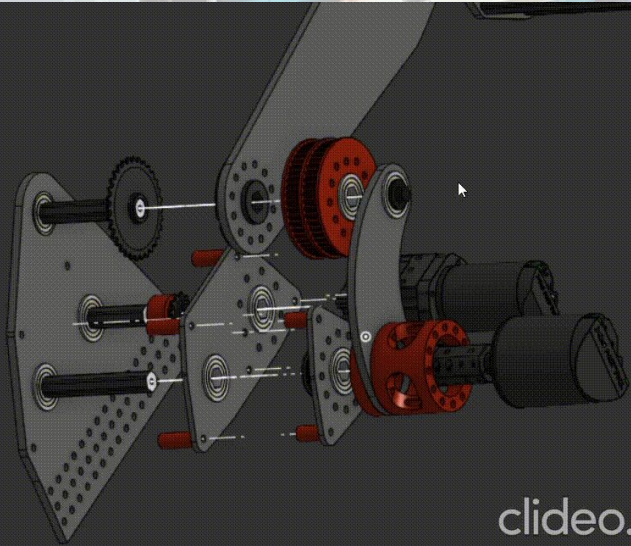

Designing the gearbox

What is the “correct” part placement?

What motor should we use?
